

PERFECT POLISHING PEEL FACIAL TREATMENT

SUGGESTED RETAIL	\$75-\$225
SUGGESTED TIME	30-45 minutes
SKIN TYPES	Appropriate for all skin types.
DESCRIPTION	<p>This exfoliating and renewal facial stimulates cell turnover and revives aging skin with no downtime. A gentle lactic acid treatment helps loosen dead skin cells and prep the skin for an invigorating pumpkin enzyme micro peel. This combination duo of Lactic and Pumpkin make way and allow for maximum dosage delivery of our encapsulated retinol, Adaptonyl® and Longevicell® This professional revitalizing facial gently removes dead skin cells and improves tone and texture for a beautiful radiant complexion.</p>
BENEFITS	<ul style="list-style-type: none">• Digests dead skin cells.• Stimulates healthy cell turnover.• Slows glycation and provides antioxidant protection.• Inhibits MMP activity and improves barrier function.• Removes build-up and brightens dull, photo-damaged skin.
DIRECTIONS	<p>STEP 1 CLEANSER: Thoroughly cleanse the face using abi's Corrective Wash. We suggest massaging the cleanser in circular motions over the face and neck area with fingertips until make-up, oils, and daily build-up have been removed. For additional exfoliation, apply a second layer as a mask and allow to penetrate for 3-5 minutes. Rinse thoroughly.</p> <p>STEP 2 EXFOLIATION: Use a 4x4 to gently sweep the face with the 15% lactic acid solution. Allow for the solution to penetrate. For additional exfoliation, a second layer can be applied directly on top of the first layer. Allow to penetrate and proceed to Step 3. Please note: if irritation occurs or for extremely sensitive skin, rinse with warm water prior to performing step 3.</p> <p>STEP 3 MICRO PEEL: Apply abi's Polishing Pumpkin Micro Peel. Start with the areas of the cheek bones, and smile lines area. Then fan the pumpkin peel out in upward direction, using a spatula, fan brush or your fingers. Apply a thin, smooth, even layer all over the face. Once the face is evenly covered, allow the peel to penetrate the skin. The client should feel some tingling which will usually subside after 7-10 minutes. Use tepid water and a damp face towel or 4 x4 cloth to remove the mask. For additional exfoliation, use steam to reactivate the peel for an additional 3-5 minutes.</p> <p>STEP 4 LIGHTWAVE RED LIGHT: Expose the skin to 8-10 minutes of Red Light to reduce redness, inflammation and stimulate collagen production.</p> <p>STEP 5 RETINOL REVITALIZING TREATMENT INFUSION: Apply the Retinol Revitalizing treatment using a fan brush or fingertips. Do NOT massage into the skin. Apply evenly all over the face. Please see Topical Light Infusion Retinol Revitalizing Treatment protocol for complete details.</p> <p>STEP 7 SUNSCREEN: Apply an ample amount of Sensible Sunscreen and allow it to absorb. Do not massage the sunscreen into the skin. The closer the sunscreen remains to the epidermis; the more protection it provides.</p>
CAUTIONS OR NOTES	<p>When applying product around the eye area, be cautious not to get product in the eyes or to aggressively rub the delicate skin tissue surrounding the eyes. If irritation at any time persist, remove the product with luke warm water.</p>
SUGGESTED TAKE HOME PRODUCTS	Exfoliating Enzyme Wash, Intense Antioxidant, Moisturizing Antioxidant. Hydrating Recovery Gel
